

SUNDAY, JULY 24, 1897.

FOR PRESIDENT IN 1888,

JAMES G. BLAINE,
OF MAINE.

Subject to the decision of the Republican National Convention.

"We always have the American flag above us and not below us."—James G. Blaine.

Cleveland Weak in Indiana.

CHICAGO, July 22.—A special to the News from Indianapolis says: Scott Ray, speaking at the annual meeting of the Democratic editors of Indiana today, denounced President Cleveland and his Administration. His Civil Service policy was savagely attacked and Bayard, Garland and Vilas were spoken of harshly. In concluding his speech Ray said that with Cleveland as the Democratic candidate for President in 1888, Indiana would be lost, that it is doubtful whether he could carry Virginia, West Virginia and North Carolina; that he has alienated the Democratic members of the Grand Army of the Republic, and that thousands of labor votes in New York would not support him.

A \$100,000 Brewery for Stockton.

Stockton, July 22.—Herman Kurth & Co. have bought 60 acres of land adjoining this city for \$18,000, and will erect thereon a \$100,000 lager beer brewery of the new vacuum process. The parties are from Morosini, New York. Stockton was selected, among other considerations, for the cheap rate of transportation to the markets and its accessibility to fine barley centers. Preliminary work has already begun.

Ex-Secretary Manning, in a recent interview, said:

The President's course has been consistent with Democratic principles in every respect. The Democratic party is just as strong to-day and will be just as strong in 1888 as it was in 1884. At that time, too, the Republicans were confident of electing their candidate, but the result showed how badly they had been mistaken. Mr. Cleveland has won the respect and confidence of the people, who have come to the conclusion that he is a far abler man than they had believed him to be. The Republicans claim that the large surplus is a source of danger. It can safely be trusted in Mr. Cleveland's hands. In 1884 our opponents said the Treasury could not be trusted in Democratic hands. They say an extra session ought to be called to take \$50,000,000 off the taxes. Well, if Mr. Cleveland's Administration had not been a wise and economical one, they would not have been able to propose such a measure.

At the meeting of the Northern Pacific Directors Thursday the annual report was read. It makes a favorable showing, notwithstanding the increased fixed charges on account of the Cascade Division and branch lines. The company has kept within its income, and made a surplus of over \$1,000,000. The dividend scrip has been extended under the offer of the company for twenty years. The new scrip will be in denominations of \$500 and \$1,000, and will bear coupons payable twice a year. It is believed that all the holders will get their scrip extended before it becomes due, January 1st next. Traffic agreements were ratified with the new branch line which runs through the Walla Walla wheat valley, and also with the branch line being built by the Rockford Coal Company.

In an examination of the books and accounts of Mr. Jordan, late Treasurer of the United States, which has just been concluded, the only discrepancy was a shortage of \$2 50 in the way of gold coins of that denomination, which had been counted by weight many years ago and passed along from Treasurer to Treasurer as correct, and the mistake was only discovered by actual count. The tracer showed the name of the clerk who made the mistake, and as he is still in the service the matter was called to his attention and he immediately made the shortage good, so that Uncle Sam's cash account now balances.

Minneapolis is one of the wonders of the booming new cities of the Northwest. Among her public works now in progress are \$400,000 worth of bridge work, seven miles of sewers, five miles of paving, twenty-seven miles of curbstone, thirty-five miles of water-pipe, sixty miles of sidewalk and seventy-five miles street of sprinkling. The population increased twenty-eight per cent last year, and new buildings are going up by the hundreds to accommodate the throng of strangers.

The Santa Fe system has gone into the California excursion business on an extensive scale. Agents have been appointed in St. Louis, Chicago and various other cities.

STATE AND COUNTY FAIRS.

The San Francisco Spirit of the Times says:

We beg to remind our sporting readers that the time is fast approaching when they must make their entries for the various events that are placed before them in all quarters of the State. From one end of California to the other, great preparations are being made and our horsemen on no previous occasion have had such a menu placed before them as on this, and whether they be patrons of the blood horse, trotter or pacer, they will find that the dishes before them are so varied and ample that there is no room left for the most chronic "kicker" to find fault, and by the time they get through with the two hundred and fifteen races that are on the programmes they will have a very clear idea of what their stock, especially the young ones, are made of; and the horse that is not able to earn its winter's oats during the next three or four months, the best thing its owner can do with him is to send him to the plow or the wagon and there let him fulfill the destiny that nature intended him for.

The call on the various stables no doubt will be great, but the time of almost all the fairs are so arranged that there is little danger of them clashing, so that each and all can reasonably expect good entries, and that, too, of a class of horses that will be much superior to any hitherto seen on the "tracks" of the fair fields.

The programmes of the State Fairs of California and Nevada are really what may be called magnificent and promise to eclipse anything heretofore held in these States.

The Fair of the former will last nine days and during that time there are no less than thirty-five (including racing and trotting) events to be decided, the purses and added money to which, amount to the very large sum of \$16,350. These prizes are so arranged as to give all classes of horses a fair and reasonable opportunity to appropriate one or more of them, and the managers have evidently taken considerable trouble in dividing this large amount of money in such a manner as to come within the reach of all, yet leaving many of the stakes really valuable prizes. There will also be awarded to the owner of the sire whose get shall make the best average performance in the races for trotting foals, two, three and four-year-olds, in 1897, 1898 and 1899, the Grand Gold medal of the California State Agricultural Society, which shall be of not less than \$200 in value; this in itself is well worth putting forth all possible energy to capture, as it ensures a stamp of value to the sire that is not easy to calculate in dollars, but must represent many folds the worth of the medal, besides a trophy that any breeder should be justly proud of.

The Nevada State Fair is but little, if anything, behind California in the scope of its aims, and gives no less a sum than \$10,000 to be divided between thirty-five races and trotting events, and its President, C. C. Powning, Esq., offers as a special premium, a gold medal worth \$100 for the best exhibit in any department; the Fair will continue for ten days, from September 21st to October 1st. The programme is most varied, as a glance of it in our columns will show, and cannot fail to be a splendid success. The district fairs, too, as will be seen in our pages, are on the most extensive scale, and promise in many instances to rival the State Fairs mentioned above, and among these we would refer our readers to the programmes of Nevada and Placer counties Fair, which is giving \$10,000 in purses and premiums; the Sonoma and Marin District Agricultural Association's Fair at Petaluma \$8,000; the Golden Gate Fair, \$11,050; the Marysville Agricultural District, \$8,000; the Stockton District, \$15,000, and the Plumas, Lassen, Sierra and Modoc Agricultural Association gives no less a sum than \$7,000 in purses and premiums. These are large amounts of money and cannot fail to draw vast crowds of all classes of citizens to see the sports that the various Societies have so lavishly and generously provided for in their programmes. But our readers must remember that the sports are only a portion of the programmes, and indeed the least worthy of them, for at these Fairs are to be seen, and put in competition, the varied and wonderful resources of our wonderful State, and here at these Fairs will be seen everything that is born of the sun and earth in our beautiful clime, a production so great and so valuable that those who are strangers to our resources and who will happen to see them for the first time, must indeed look on in wonder and amazement, on beholding the magnitude of our products and the marvelous fertility of the land that can produce them. The searchers for homes in California will find at these Fairs, mirrored, as it were, the wonderful adaptability of our soil to all descriptions of husbandry, and cannot put a portion of their time and money to better account than attending them and seeing for themselves the advantages that the State holds out to the intelligent and industrious, who are in search of happy homes.

The Women of Santa Cruz Take Steps to Make Their City More Beautiful.

SANTA CRUZ, July 22.—The ladies of this city have completed the organization of the Santa Cruz Improvement Society. Its constitution states that its objects are to "promote good fellowship and secure public health by better hygienic conditions in our houses and surroundings, improve our streets, roads, public grounds and sidewalks, establish good grass borders in the streets and public squares, lay out and improve paths and walks, planting and preserving trees, provide drinking troughs, remove nuisances, and in general to build up and beautify the whole town, and thus enhance the value of its real estate and render Santa Cruz a still more inviting place of residence."

The officers of the society find that its work is very popular with the citizens of Santa Cruz, and that it bids fair to become broader in its scope than was at first imagined.

AN OCEAN TEA PARTY.

Exciting Race from the Orient Between Tea-Laden Ocean Steamers.

NEW YORK, July 21.—Great interest has been excited among the tea traders over the long race from Yokohama, Japan, to New York, by way of the Suez Canal, between the steamers Monmouthshire and Glenshiel. The first steamer left Yokohama on May 31st with 6,000,000 pounds of Japan tea. The other followed on June 3rd with 1,700,000 pounds of tea, the cargoes being the first shipped of the new season's crop. After leaving Japan the steamers crossed to China, where they were to complete their cargoes with China teas, besides taking some 2,000,000 pounds in addition to what they already had. On July 12th the Glenshiel passed out of the Suez Canal at Port Said, just as the Monmouthshire entered at Suez, thus making them less than forty-eight hours apart. On July 17th the Monmouthshire was sighted at Malta, and would be due at Gibraltar on July 20th, but probably passed in the night and escaped without being spoken. The Glenshiel passed through the straits on July 19th, making about 24 hours difference between the two ships on their already long sail. The usual time from Gibraltar to New York is about fifteen days, but both steamers will endeavor to make all possible speed. It is believed the time will be considerably lessened, and their arrival is looked for between the 1st and 5th of August.

Salt Lake to Los Angeles.

There is every reason to believe that the Union Pacific will sooner or later build into Los Angeles. The project has been under consideration by the Directors of the road for some time and now that the boom is on and Southern California attracting the attention of the whole nation, they are more anxious than ever to make a start. The Union Pacific has practically been advancing on Los Angeles by slow strides by the extension of its Utah central line. Engineers say that there now remain only about 700 miles of road to construct, and the work will not be of a difficult character, as no grade on the whole line need exceed seventy feet to the mile. The time between Salt Lake City and Los Angeles would, by the building of this road, be reduced to about twenty-eight hours. It now requires double that time to make the trip. It is believed by the Union Pacific men that the proposed road could be made to pay. Numerous surveys have been made of late and it is believed that when the right route has been hit upon the road will be built.

Poison in Ice Cream.

EASTON, Penn., July 22.—The July number of the Journal of Analytical Chemistry will contain an article by Professor Victor C. Vaughan upon tyrotoxin, a poisonous substance sometimes found in ice cream. This substance was discovered by Vaughan about a year ago. He has discovered that the substance is identical with benzol, which has been known for many years and was first prepared from anilines by a German chemist. The important point brought out by Professor Vaughan's researches is that the poison is destroyed by boiling the ice cream mixture before freezing.

THE NEW PANORAMA.

A Vivid Picture of the Battles Between Federal and Confederate Armies Around Vicksburg.

The San Francisco Post says: The new panorama of the Battles of Vicksburg was finally arranged yesterday, and was thrown open to the representatives of the press in the afternoon. The arrangements are the same as those that became familiar in the Battle of Waterloo, which it displaces, but the painting is more complex than that striking work.

The Post reporter, on entering, found himself on one of the highest points of the Confederate redoubts, watching the assault of the Union forces in Grant's ineffectual effort to storm the works. Grant stands with his staff a little to the north, according to the diagram, though for some occult reason it has been placed on the south side of the building, and the points of the compass carefully reversed. The General is watching the desperate assault of the Iowa troops on the northern redoubt. The Union flag is planted on the parapet, and a few Union soldiers have gained the crest. Pemberton is directing the battle in person at this point, and Cockerill is hurrying forward reinforcements to repel the assault.

On the other side the Union and rebel forces are engaged in the open field, and two Missouri regiments are in hand-to-hand conflict in the hollow.

The naval bombardment of the Confederate position forms a striking part of the scene. Admiral Porter's fleet is stationed along the broad Mississippi, and the terrific effect of the mortars is seen in the shattered buildings, and ruined redoubts. A building below the main fort has been set on fire by a shell and is blazing fiercely.

The realism in the painting is well preserved. It is in most cases difficult to tell where the foreground leaves off and the painting begins. The position chosen seems to give an inadequate idea of the strength of the Confederate position or the number of the Confederate forces. The great Vicksburg fortifications that beat back Grant's forces for a year and were the terror of the North seem a rather insignificant affair in comparison with their reputation. Nevertheless the scene is filled with figures and action, and as the whole has been painted under the supervision of men who were a part of the battle, it is undoubtedly an accurate representation of a great historical scene.

REMARKS AND CONDITIONS.

Nominations to stakes must be made to the Secretary on or before the first day of August, 1887. Entries for the purses must be made for Monday's races on the Saturday preceding. For Monday's races, on Monday, and for Friday's races, on Wednesday, at the regular time for closing entries as designated by the rules. Those who have nominated in stakes must name to the Secretary in writing which they will start the day before the race, at 6 P. M. Horses entered in purses can only be drawn by consent of the Judges.

The rules of the Pacific Coast Blood Horse Association will govern running races. All horses entered for State purses must be owned and kept in Nevada and California, east of the Sierra Nevada, for six months prior to day of race.

Entries to all trotting races will close September 1st, with the Secretary. Five or more to enter and three or more to start in all races for purses.

National Trotting Association Rules to govern trotting races. Pacific Coast Blood Horse Association Rules to govern running races, except as above.

All trotting and pacing races are the best three in five, unless otherwise specified; five to enter and three to start. But the Board reserves the right to hold a less number than five to all, by the withdrawal of a proportionate amount of the purse. Entrance fee, ten per cent, on purse, to accompany nomination.

National Trotting Association Rules to govern trotting, but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between heats. A horse making a walk-over shall be entitled only to the entrance money paid in. When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 60% to the first and 40% to the second.

In all the foregoing stakes the declarations are void unless accompanied by the money. Please observe that, in the above stakes, declarations are permitted for a small forfeit.

All races entries not declared out by 6 P. M. of the day preceding the race shall be required to start. Where there is more than one entry by one person, or in one interest, the particular horse they are to start must be named by 6 P. M. of the day preceding the race. No added money paid for walk-overs.

Racing colors to be named in entries. In trotting races drivers will be required to wear caps of distinct colors, which must be named in their entries. Each day's races will commence promptly at one o'clock P. M.

All entries must be directly to C. H. Stoddard, Secretary of the Society.

EQUESTRIANISM. Ladies' Grand Tournament for the most accomplished and graceful lady riders, Friday, Sept. 28, Wednesday, Sept. 28 and Friday, Sept. 30, at 10 o'clock A. M.

The Society offers four premiums, valued respectively at \$100, \$50, \$40 and \$20. The lady who is adjudged first shall have her choice of all premiums offered. The second lady shall have second choice, and so on. All ladies must ride with saddles.

It is expected that other special premiums will be added to this list by private contribution. No one but ladies of the highest respectability will be allowed to compete for prizes.

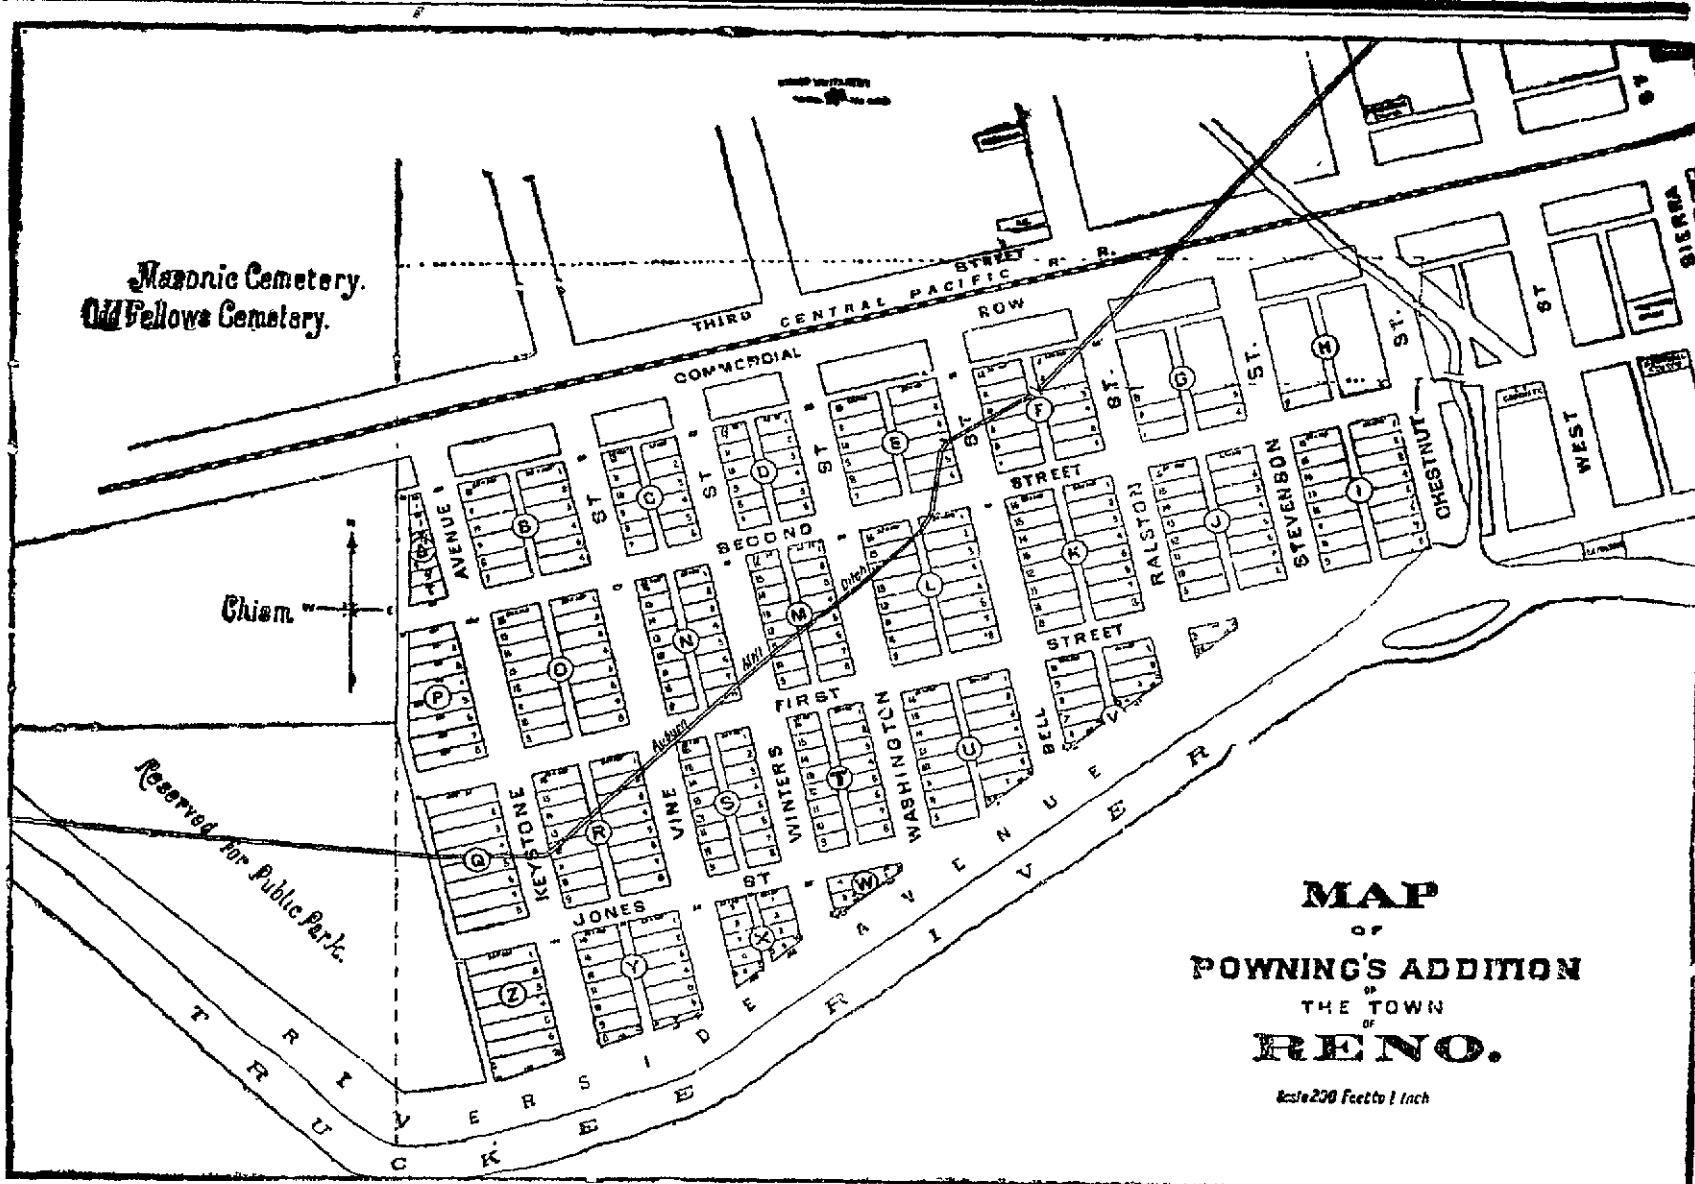

Ladies wishing to compete for prizes will please send name to Secretary, endorsed by two members of the Society.

INDIAN PONY RACES. On Thursday, Sept. 22d, Monday, Sept. 25th and Thursday, Sept. 28th the novelty of an Indian pony race will be provided, and the amusing sight of twenty or thirty noble red men of the forest, mounted on the wildest and most unmanageable cayuses imaginable, galloping around the track at break-neck speed, will, as they say at the circus, be alone worth the price of admission.

CLYDESDALE MEDALS. The American Clydesdale Association will give a valuable medal, of suitable design, for the best recorded Clydesdale stallion, and a similar medal for the best recorded Clydesdale mare bred in Nevada, and exhibited at the State Fair of 1887.

BALLOON ASCENSIONS. Arrangements have been made for a series of balloon ascensions during the Fair, alike novel and exciting. Ascensions will be made daily from the race-track.

BICYCLE RACES. Two or three bicycling races will take place between the fastest wheelmen in the State, and ten contestants are counted upon.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME.

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

PARKER'S MAP OF NEVADA.

PARKER'S NEW MAP OF NEVADA.

THIS NEW AND BEAUTIFUL

MAP OF THE STATE,

Has Just Been Published, and is Now Ready for Sale.

It has been completed with great care in order to insure its being strictly correct, and furnishes a vast fund of valuable information regarding the topography of the State. There never has been a Map of the State prepared heretofore worthy of the name, and it is intended to fill a long-felt want on the part of citizens. It has been lithographed at large expense by the famous publishing house of Rand, McNally & Co., of Chicago, and does great credit to their well-known skill in the art. The Map is drawn on a scale of 12 miles to the inch, and shows all surveyed Townships up to date of issue, also all Mountain Ranges, Valleys, Rivers, Creeks, Brooks, Streams and Lakes; it also shows the correct position of all Indian and Military Reservations, and all Cities, Towns and Settlements; also all Railroads and the principal Wagon Roads. The County Boundaries are also depicted with absolute correctness, which is something that no other Map has even approximated to.

The Map is printed on the best of paper, and mounted with stick, top and bottom, with tape on edges and varnished; it is also printed on thin, strong paper, which folds up in stout covers for pocket form. The Counties are printed with different colors, making it altogether an ornament to any school house, office, saloon or private room, as well as valuable for instruction and reference.

The Map has been compiled by John W. Parker, the Chief Draughtsman of the United States Surveyor-General's Office at Reno, who holds the copyright, and is the condensation of all information on file in that office, as well as the celebrated War Department Maps prepared by Lieutenant Wheeler; he has also had at his command other recent and reliable data on which to rely, and the Map is issued to the public in the firm belief that it is in every way authentic.

The Price of the Map is \$5.00,

And copies will be sent to any address, postpaid, upon receipt of the money. Parties ordering will be careful to state which style is desired—mounted or pocket form.
